Subject: Sept ozone update
Attachments: 2017 Running O3 Update_through_09-30-17.pdf

All:

Attached is the summer ozone update, through September. This will be the last planned update for the season. The file can also be found on our website at https://www.colorado.gov/airquality/html_resources/ozone_summary_table.pdf.

There were a number of exceptional/natural events over the summer. Two in particular, 9/2 and 9/4, will be fully documented as wildfire smoke-influenced days and sent to EPA for concurrence.

Please let me know if you have any questions.
Gordon
